

Trade in and trade up for incredible savings on a new Fortus 450mc™ or a Fortus 380mc™ Carbon Fiber Edition printer.

Option 1: Fortus 400mc Customers

Trade in your Fortus 400mc™ and get \$50,000 off the price of a new Fortus 450mc. In addition, you'll receive all current advanced material licenses and corresponding hardware upgrades for free, an \$80,000 value. Your total savings with this bundle is \$130,000!

Boost your additive manufacturing capability with the Fortus 450mc. Leverage its broad portfolio of materials including ULTEM™ 9085/CG, ULTEM™ 1010/CG, two Antero® PEKK-based materials and FDM® Nylon 12 Carbon Fiber to expand your 3D printing applications.

Option 2: Fortus 360mc and/or Fortus 400mc Customers

Trade up your Fortus 360mc™ or Fortus 400mc for a new Fortus 380mc CFE (Carbon Fiber Edition) and save \$24,900.

The Fortus 380mc CFE lets you print with FDM Nylon 12CF carbon fiber material. This material has the highest stiffness-to-weight ratio of any FDM thermoplastic, making it the ideal choice for strong and rigid but lightweight parts and tools. The Fortus 380mc CFE also prints with ASA material, for applications that don't require the stiffness of carbon fiber.

Don't miss this limited-time opportunity to instantly upgrade your 3D printing capability with high-impact materials and dependable Fortus performance at exceptional savings.
