

# FEMUR SAW & DRILL GUIDE

FEATURED MATERIAL PC-ISO™

Today's leading-edge surgical teams are using patient-specific 3D data and FDM® technology to produce custom prototypes that help improve their success rate and cost by reducing the time for the patient and surgical team in the operating room. In addition, the surgical teams using the same data to produce custom, patient specific surgical guides to improve the precision of their

<b>System</b>	Fortus 400mc™
