

Capability Part

SAF™ PA12 can achieve tight tolerances as our sample Capability Part demonstrates. The barrel hinge allows the part to fold up, protecting the inner surface. With positive features on one side and the corresponding negative features on the other, including an M8 screw thread with corresponding M8 nut, a chain, rotating auger screw, pins, holes, fins, and slots.

This part demonstrates the many benefits of SAF™ PA12 including accuracy, smooth surface finish, feature resolution and consistency. Explore SAF™ PA12 production-grade parts for your production needs.

System	H350 3D printer
Technology	SAF technology
Material	SAF™ PA12
Printed Layer Time*	9 hrs, 44 mins
Volume of Material Used	73.6 cm ³

* Printed layer time approximates the time taken to print the layers that form the parts in the build only

ISO 9001:2015 Certified
